

**Granted, our world novelty occasionally shines a bit askew ...**

**GIFAS-ELECTRIC**

**... but that's what we have designed it for.**

The new battery lamp *FlashLED* with emergency light function.  
With pivoting lighting head and many more benefits.

**Lamp head position**

Simple operation, position pivotable: 0°/30°/60°, with catch.

**Colors filters**

Can be equipped with color filters in red, yellow and green.

The latest charging and monitoring electronics combined with a modern design and state-of-the-art LED technology are the basis of this product – made by GIFAS.

**Emergency light function**

Lamp switches on in case of power failure.

**ON/OFF switch**

On/Off settings are stored. After power on, the last setting will be used automatically.

**Light intensity**

In all settings, the light output can be adjusted continuously. Tip: Morse and blink functions.

**Beam angle**

You can choose from wide, working and position light.

**Options**

Two eyes for fixing shoulder strap and/or anti-theft device.

**Handle**

Ergonomic and anti-slip handle form.

**Protective bar**

Protects the lamp head from damage caused by blows.

**Display**

Indicates charging status and operating mode.

FlashLED

## FlashLED by GIFAS-Electric:

Work and inspection lamp with emergency light function

### Technical data:

▶ <i>Light sources</i>	5 high power LED 3 W each, white
▶ <i>Battery life</i>	Wide beam 3 x LED 8° = up to 6h Working light 5 x LED = up to 3.5h (emergency light) Position light 2 x LED 45° = up to 7h
▶ <i>Power supply</i>	230VAC, 24VDC, 12VDC
▶ <i>Rechargeable battery</i>	NiMH Akku 7.2V – 4500 Ah
▶ <i>Charging time</i>	10h
▶ <i>Protection type</i>	Lamp IP65, Charging station IP54
▶ <i>Dimensions</i>	Lamp with charging station: 332 x 149 x 106mm
▶ <i>Weight</i>	Lamp: 1,4kg Charging station: 0,7kg

### Product features:

- ▶ Robust housing, compact design
- ▶ Up to 7 hours light, three selectable operation modes:
  - *Wide beam: focused, narrow and wide beam of light*
  - *Working light (emergency light): wide cone of light*
  - *Position light: room illuminating economy light*
- ▶ NiMH rechargeable battery with high power density
- ▶ Corrosion-proof charging contacts (gold-plated chrome steel)
- ▶ Excess current, temperature and deep discharge protection
- ▶ Charging unit IP54, can be used as desktop or wall-mounted unit
- ▶ Swiss quality products made by GIFAS
